Bears Working for Recessions With But Indifferent Success

LONDON MARKET NARROW

Metropolitan Securities Lost Two and a Half Per Cent on Holders' Sales, But Rallied.

NEW YORK, Sept. 13 .-- The stock market's opening gains were small and there were quite a number of declines. The only active and aggressive strength was shown by Southern Railway, which opened % higher and maintained it. Pennsylvania was up %. Metropolitan Securities rose ½. St. Paul was slightly easier. Metropolitan Street Railway was 1/2 lower. A single transaction in Smelt-

ers was at a loss of 11/2 per cent. Following the sharp and somewhat un-expected reaction of yesterday, the market today developed extreme irregularity and feverishness. There was some continuance of realizing sales and ex-ecution of stop loss orders, but indications were not lacking that bear efforts were extended to bring about a more extensive recession. Here and there support appeared on some of the sharp breaks which occurred, as, for instance, in Reading and Texas Pacific, which fell over 1 per cent on a sudden rush of sales and almost immediately recovered most of the loss. There were indications of support, also, at the concession in Erie common and first pre-ferred, Union Pacific, Southern Pacific,

cession in Effe common and first preferred. Union Pacific, Southern Pacific, Pennsylvania, Atchison, Rock Island, and the Gould Southwestern stocks in general. St. Paul declined a point and was kept somewhat under pressure. In the industrials, good support was apparent in United States Steamship preferred. Sugar lost only fractional ground. Amalgamated Copper received some support, and the same can be said of Smelting and Refining. Consolidated Tobacco preferred lost ½ per cent. The feature of local tractions was Metropolitan Sceurities. This issue on the sales of holders, alarmed lest the minority shareholders should be left in the lurch on any transfer of control, broke 2½ per cent, although a recovery of 1½ per cent, although a recovery of 1½ per cent, although a recovery of 1½ per cent, and the sare and unsettled, but covering of thorts and new buying has effected rather general rallies. Government bonds unchanged. Other bonds irregular.

Noon—The early London market at the higher plane was evidently very narrow, iif not artificial, for the arbitrage-kiouses-hore have sold a great dealmore than they have bought.

The low prices of the day here were made at just about 10:30. The market was vigorously attacked, especially by Chicago houses, and the attack met with very considerable success, for a time, on account of the large amount of stop orders uncovered.

Most of this represented profit-taking induced to some extent by the reports of crop damages. The Government crop report of Saturday supported the argument of the crop experts. It is a curious coincidence that the estimate of the wheat crop based on the Government report confirms to within a few thousand bushels the estimate of J. J. Hill, president of the Northern Securities Company, who had placed it at 540,00,000 weeks ago. It would seem that another charge of leakage from disappointed speculators would be in order.
